

FIBRAN*gyp*s NEXT SCREW

Product Description

Self-drilling screw, with a special corrosion-resistant coating that guarantees 500 hours to salt spray test. The under head has very sharp countersunk nibs to allow the screw to flush perfectly with the board.

Applications

Self-drilling screw suitable for fixing FIBRAN*gyp*s NEXT BOARD (maximum 2 layers) to the metal structure till 10/10 thickness of steel.

Features	U. M.	Value	Standard
Type	-	Self-drilling	EN 14566
Length	mm	35	EN 14566
Major diameter	mm	4,2	EN 14566
Fire reaction	Class	A1	EN 14566
Salt Spray Test resistance	h	500	-
Steel hardness	-	SAE 1022	-
